F2: The primary service provider currently services eleven EOAs of the twenty-seven EOAs within the County. This represents nine (9) percent of the geographic area and 80 percent of the total population.

RECOMMENDATIONS

18-12: Create one Exclusive Operating Area (EOA) that covers the entire County. This would allow one provider to cover the County and require the provider to service populated and rural areas. If one EOA were created to encompass the remaining sixteen EOAs, the current provider could retain grandfathering protection.

18-13: Create a Request for Proposal (RFP) for a new service provider contract.

18-14: Present a new contract to the Board of Supervisors.
